

Profile

Data Analyst with internship experience in SQL, Python, Power BI, and Excel, supporting data analysis, reporting, dashboard development, and business intelligence solutions. Skilled in writing SQL queries, transforming data with Power Query, and building interactive dashboards, with working knowledge of machine learning and a strong foundation in ETL concepts, database fundamentals, and data modeling.

Skills

- SQL

• Python

• Power BI

• Power Query
- DAX

• Tableau

• Excel

• Data Cleaning
- Data Validation

• EDA

• KPI Analysis

• Statistical Analysis
- Data Visualization

• ETL

• Data Modeling

• MongoDB
- Machine Learning

• NumPy

• Pandas

• Matplotlib
- Seaborn

• Scikit-learn

• Reporting Automation

Professional Experience

- Data Analyst Intern**
JHS & Associates LLP

12/2025 – 04/2026
Ahmedabad

- Processed and transformed 6+ business datasets using SQL, Excel, and Power Query, improving data accuracy and significantly reducing manual effort.
 - Built 3+ interactive Power BI dashboards with DAX measures, KPI scorecards, and drill-through analysis to support business decision-making.
 - Automated data preparation workflows using Power Query, enabling faster and more consistent dashboard refreshes.
 - Partnered with stakeholders to translate reporting requirements into visualization solutions, improving reporting efficiency and accuracy.
- Data Analyst Intern**
Grras IT Solutions

02/2025 – 07/2025
Ahmedabad

- Cleaned, validated, and analyzed 5+ business datasets using Python and SQL, improving reporting accuracy and overall data quality.
 - Created 4+ interactive Power BI dashboards for KPI tracking, operational monitoring, and business performance analysis.
 - Wrote optimized SQL queries to extract, validate, and structure data across multiple datasets for reporting use.
 - Applied statistical analysis and customer segmentation to uncover business insights, reducing reporting turnaround time.

Projects

- Loan Delinquency Risk Analysis**

- Analyzed financial and repayment data for 500 customers, identifying key delinquency drivers such as income level, credit usage, and DTI ratio.
 - Built a two-page interactive Power BI dashboard covering portfolio overview (credit usage trends, payment performance, delinquency by location and age group) and risk analysis (risk categorization, DTI by income segment, credit score vs. missed payments).
 - Designed KPI scorecards tracking delinquency rate, average credit score, outstanding loan amount, and DTI%, giving stakeholders a quick portfolio health snapshot.
 - Segmented customers into risk categories and built a drill-through table of top high-risk customers, surfacing insights like employed customers forming the largest share of delinquent accounts.

E-commerce Data Analysis

- Built a multi-page Streamlit application analyzing 105K+ orders across 6,987 SKUs, covering revenue trends, category performance, and geographic sales patterns.
- Applied K-Means clustering to segment SKUs into performance-based categories, helping identify top-performing and at-risk inventory.
- Developed a cancellation risk classification model to flag high-risk orders based on order attributes such as price, discount, and timing.
- Built an interactive prediction tool enabling real-time testing of cancellation risk and sales forecasts using custom order inputs.

Customer Churn & Retention Analysis

- Performed end-to-end churn analysis on 1,204 customer records using SQL, MongoDB, Python, and Power BI.
- Wrote SQL queries and MongoDB aggregation pipelines to analyze customer behavior and generate retention insights.
- Cleaned, validated, and integrated customer datasets, then applied statistical analysis and segmentation to uncover churn patterns.
- Built an interactive Power BI dashboard featuring churn KPIs, retention metrics, customer segmentation, and plan-level business insights.

Education		
Bachelor of Engineering in Computer Engineering SAL Engineering & Technical Institute CGPA : 8.10	09/2022 – 06/2026 Ahmedabad, India	
	06/2021 – 03/2022 Ahmedabad, India	
Higher Secondary Certificate (HSC) Nishan School	06/2019 – 03/2020 Ahmedabad, India	
Secondary School Certificate (SSC) Nishan School		

Certificates		
Python + Artificial Intelligence Course Centre for Development of Advanced Computing (C-DAC)		
Data Analyst Certificate Tata GenAI Powered Data Analytics / Tata Forage		

Languages		
• English	• Hindi	• Gujarati
