## PROFESSIONAL EXPERIENCE

**Data Analyst Intern** 12/2025 – 04/2026  
JHS & Associates LLP Ahmedabad

- Analyzed, validated, and transformed business data using Excel, SQL, and Power Query to improve reporting accuracy and support operational decision-making.
- Developed interactive Power BI dashboards and KPI reports to monitor business performance and provide actionable insights to stakeholders.
- Automated recurring reporting workflows using Power Query, improving reporting efficiency and reducing manual effort.
- Collaborated with cross-functional stakeholders to understand business requirements and deliver dashboards and reports aligned with organizational objectives.

**Data Analyst Intern** 02/2025 – 07/2025  
Grras IT Solutions Ahmedabad

- Analyzed business datasets using Excel, SQL, and Python to identify trends, improve data quality, and support business reporting.
- Built interactive dashboards to monitor KPIs, business performance, and operational metrics for informed decision-making.
- Extracted, cleaned, and transformed data using optimized SQL queries to support reporting and analytical requirements.
- Conducted exploratory data analysis and customer segmentation to identify business opportunities and present actionable recommendations.

## PROJECTS

**Loan Portfolio Risk Analysis**

- Analyzed loan repayment and financial data to evaluate portfolio performance and identify delinquency trends.
- Developed Power BI dashboards to monitor loan KPIs, customer segments, and portfolio risk indicators.
- Performed trend analysis to identify high-risk customer groups and support business decision-making.
- Delivered analytical insights and business recommendations to improve portfolio monitoring and risk management.

**E-commerce Sales & Business Performance Analysis**

- Analyzed sales, customer, and product data to evaluate revenue trends and operational performance.
- Applied customer and product segmentation techniques to identify high-value customers and optimize product performance.
- Performed forecasting and trend analysis to support business planning and operational decision-making.
- Built interactive dashboards and business reports to communicate key insights to stakeholders.

**Customer Churn & Retention Analysis**

- Analyzed customer behavior and business metrics to identify key drivers of churn and retention opportunities.
- Performed customer segmentation and trend analysis to support data-driven retention strategies.
- Developed interactive Power BI dashboards to monitor churn KPIs, customer performance, and business insights.
- Presented analytical findings and recommendations to improve customer retention and business performance.

## EDUCATION

### **Bachelor of Engineering in Computer Engineering**

SAL Engineering & Technical Institute  
CGPA : 8.10

09/2022 – 06/2026  
Ahmedabad, India

### **Higher Secondary Certificate (HSC)**

Nishan School

06/2021 – 03/2022  
Ahmedabad, India

### **Secondary School Certificate (SSC)**

Nishan School

06/2019 – 03/2020  
Ahmedabad, India

## CERTIFICATES

### **Python + Artificial Intelligence Course**

Centre for Development of Advanced Computing (C-DAC)

### **Data Analyst Certificate**

Tata GenAI Powered Data Analytics / Tata Forage
